6. After Knitting, submit the completed exercise (PDF file) to the appropriate assignment section on Canvas.

1) Discussion Questions

Enter answers to the questions just below the `>Answer:` prompt.

1. What are your previous experiences with data analytics, R, and Git? Include both formal and informal training.

Answer: For my undergrad GIS class, we did a little bit of work using R to pull census data and export it as a csv, then used in QGIS, but I have very limited knowledge

2. Are there any components of the course about which you feel confident?

Answer: Everything related to R is pretty new to me!

3. Are there any components of the course about which you feel apprehensive?

Answer: Not really! Pretty excited to learn

2) GitHub

Provide a link below to your forked course repository in GitHub. Make sure you have pulled all recent changes from the course repository and that you have updated your course README file, committed those changes, and pushed them to your GitHub account.
